HIGHLIGHTS

- **A Comprehensive Conference on ILIZAROV Methodology**
- **A Unique Combined Basic & Advanced Deformity Correction Course**
- **Hand on Saw Bone Workshops**
- **A Galaxy of National & International Faculty**
- **Relive Surgeries Focusing on Techniques**

LIMB RECON 2026

A COMPREHENSIVE CONFERENCE ON ILIZAROV METHODOLOGY

26th - 27th September 2026 | Gurugram, (Delhi-NCR)

PRESIDENT'S MESSAGE

Dr. Rajesh Rohilla

President, Limb Reconstruction Society (LRS)
Organizing Chairman – LIMB RECON 2026

It gives me immense pleasure and a deep sense of responsibility to welcome you to LIMB RECON 2026, the Annual National Conference of the Limb Reconstruction Society, scheduled to be held on 26th–27th September 2026 in Gurugram, Delhi NCR.

Limb reconstruction has evolved tremendously over the past few decades, transforming the lives of patients suffering from complex deformities, limb length discrepancies, trauma sequelae, and congenital abnormalities. Among the most revolutionary contributions to this field is the Ilizarov methodology, which continues to remain a cornerstone for deformity correction, limb lengthening, and complex limb salvage procedures. Conferences such as LIMB RECON 2026 serve as an essential platform for sharing knowledge, exchanging ideas, and advancing innovations that improve patient outcomes.

The aim of this conference is to bring together orthopaedic surgeons, limb reconstruction specialists, residents, fellows, and researchers from across the country and abroad to deliberate on the latest developments in deformity correction and limb reconstruction. The scientific program has been carefully designed to ensure a balanced mix of basic principles, advanced techniques, evidence-based discussions, and practical learning opportunities.

One of the key highlights of LIMB RECON 2026 is the unique combined Basic and Advanced Deformity Correction Course, which will help participants strengthen their conceptual understanding while also exploring complex reconstruction strategies. In addition, the hands-on saw bone workshops will provide valuable practical experience in applying Ilizarov and other limb reconstruction techniques under expert guidance.

We are honored to host a distinguished panel of national and international faculty, whose expertise and experience will enrich the scientific deliberations and inspire the next generation of orthopaedic surgeons. Their participation reflects the growing global collaboration in the field of limb reconstruction.

As the Organizing Chairman, I take great pride in leading a committed organizing team that has worked tirelessly to create an academically enriching and professionally rewarding conference. I would like to express my sincere appreciation to Dr. Vineet Verma, Organising Secretary, and Dr. Virender Kumar, Treasurer, along with the entire organizing committee, for their dedication and hard work in planning this event.

I warmly invite all colleagues, young surgeons, postgraduate students, and researchers to actively participate in LIMB RECON 2026. Your presence, contributions, and enthusiasm will make this conference a meaningful platform for learning, collaboration, and advancement in limb reconstruction surgery.

I look forward to welcoming you to Gurugram for two days of academic excellence, interactive learning, and professional camaraderie.
